

A. Distribution of Differences

B. Q-Q Plot (Normality Check)

C. Method Comparison

Statistical Summary

Sample size: 2

Regular temperature (T=0.7):

Mean: 85.00 ± 8.00

Median: 85.00

Range: 77 - 93

High temperature (T=3.0):

Mean: 31.50 ± 17.50

Median: 31.50

Range: 14 - 49

Difference (High - Regular):

Mean: -53.50 ± 25.50

Median: -53.50

Statistical Tests:

Paired t-test: $t = -2.098$

p-value: 0.283

Effect size (Cohen's d): -2.098
