

A. Distribution of Differences

B. Q-Q Plot (Normality Check)

C. Method Comparison

Statistical Summary

Sample size: 3

Regular temperature (T=0.7):

Mean: 91.33 ± 29.03

Median: 89.00

Range: 57 - 128

High temperature (T=2.5):

Mean: 50.67 ± 26.71

Median: 37.00

Range: 27 - 88

Difference (High - Regular):

Mean: -40.67 ± 8.99

Median: -40.00

Statistical Tests:

Paired t-test: $t = -6.395$

p-value: 0.024

Effect size (Cohen's d): -4.522
