

A. Distribution of Differences

B. Q-Q Plot (Normality Check)

C. Method Comparison

Statistical Summary

Sample size: 2

Regular temperature (T=0.7):

Mean: 65.50 ± 7.50

Median: 65.50

Range: 58 - 73

High temperature (T=3.0):

Mean: 70.00 ± 36.00

Median: 70.00

Range: 34 - 106

Difference (High - Regular):

Mean: 4.50 ± 43.50

Median: 4.50

Statistical Tests:

Paired t-test: $t = 0.103$

p-value: 0.934

Effect size (Cohen's d): 0.103
