

A. Distribution of Differences

B. Q-Q Plot (Normality Check)

C. Method Comparison

Statistical Summary

Sample size: 2

Regular temperature (T=0.7):

Mean: 76.00 ± 11.00

Median: 76.00

Range: 65 - 87

High temperature (T=3.0):

Mean: 17.50 ± 3.50

Median: 17.50

Range: 14 - 21

Difference (High - Regular):

Mean: -58.50 ± 7.50

Median: -58.50

Statistical Tests:

Paired t-test: $t = -7.800$

p-value: 0.081

Effect size (Cohen's d): -7.800
